FOR IMMEDIATE RELEASE

GUTTER HANGERS – 6” & 7”

New! ADVANCED Architectural Sheet Metal is now manufacturing 6” x 7” hangers at our facility. Strengthen and hold together your gutters. Avoid cutting yourself on sharp corners with our designed rounded edges. Easily installed in your gutter assembly. Holes are punched in each hanger making for easier fastening. Available in 16 Ga. Galvanized and .060 Aluminum.

OUTLETS TUBES – 3x4 & 4x5

Channel the water on your next job with outlet tubes now being manufactured at ADVANCED Architectural Sheet Metal.

The outlets feature a larger flange and adjusted hole location can be found for better fastening.

Outlets are made with no seams to prevent splitting.

Available in .20 Ga. Galvanized and .040 Aluminum.

END CAPS – 6” K-STYLE AND 7” BOX GUTTERS

New endings now at ADVANCED Architectural Sheet Metal. ADVANCED is now manufacturing end caps which should fit most 6”K and 7” Box Gutters.

End caps fit inside of gutter for a clean appearance.

Choose from 24 Ga. Steel & .032 Aluminum in an assortment of Kynar 500® colors.

ADVANCED Architectural Sheet Metal, recognized as CRCA’s 2007 Supplier of the Year, supplies roofing and metal building contractors with commercial sized architectural sheet metal products, gutter, downspout and other rain accessories. Ninety-eight percent of our products are manufactured from our facility.
